

Spring 2022 PCEUT 201

Drug Discovery, Development and Beyond: Careers and Controversies

Are you interested in...

- Learning about creating drugs, getting approval, and marketing?
- Exploring jobs in biotech or pharmaceutical companies?
- Discussing current issues like how drugs are developed for certain diseases, who volunteers for clinical studies, the cost of drugs, and other topics?

PCEUT 201

SLN 18525

MWF 3:30-4:20

South Campus Center 221

3 credits (AoK: NW)

Questions? pceut201@uw.edu

Course is for both science and non-science majors!
