Join us to learn how you can become a part of the LSAMP Scientist Program. A program that has faculty mentor students in research. These students will have little to no research experience, but this will allow them to get their foot in the door. If you cannot mentor a student, there are still plenty of ways for you to be a part of our program.

Apply to be a 2023 LSAMP Scientist Program Mentor by March 1st, 2023:
