About the Olympic Natural Resources Center

The Olympic Natural Resources Center (ONRC) is part of the School of Environmental and Forest Sciences and is located in Forks, WA. The center investigates important issues in forestry and aquatic resources through collaborative and transdisciplinary work to support local communities on the Olympic Peninsula.

Summer 2023 Internship Program

ONRC is hiring UW students for the Summer 2023 internship program! Interns will work on a wide variety of projects throughout the summer where they will gain valuable experience and skills. Interns will work on several forest ecology and management studies including the Type 3 Watershed Experiment and the ethnoforestry study on the Olympic Peninsula as well as the long-term ecosystem productivity study in the Willamette National Forest in Oregon. Data collection will include overstory growth, understory regeneration, wildlife camera monitoring, electrofishing, and much more.

Requirements for position

- Commitment to work environment that promotes diversity, equity, and inclusion
- Ability to work in variable field conditions including heavy rain and tough terrain
- Ability to work well in teams to accomplish tasks
- Ability to follow a detailed data collection protocol
- Willingness to learn and apply new skills
- Current UW student
