

Neuroscience Undergraduate Reading Program (NURP)

Autumn 2023 Quarter

A mentorship program where undergrads are paired with grad students or post-docs to improve science literacy and science presentation skills

What it entails:

- Attend weekly meetings to discuss a science paper assigned by the grad student
- Prepare a scientific presentation (workshop to be held near end of quarter)
- Present at the NURP end-of-quarter mini symposium

Apply here: <https://forms.gle/UJwsdoWP9ZVG3USx9>

app deadline: October 1st at 11:55pm

Undergrad Testimonials

Elizabeth Gilson
4th yr Biochem

"NURP is a great opportunity for anyone who is looking to expand their understanding of Neuroscience at any level! It's a very low stakes way to engage with scientific content with a mentor helping you along the way."

Neethi Belur
2nd yr

"NURP was a great experience to read new papers on neuroscience per my interests as well as with guidance. Working towards a presentation and sharing my insights was also a great goal and experience to have!"
