

Plant Health Fellows

SUMMER 2024

Plant Health Fellows

Are you a college freshman, sophomore, or junior interested in doing scientific research to help food, landscaping, forests, or the environment? **Southern Connecticut State University** and the **Connecticut Agricultural Experiment Station** in New Haven, Connecticut are offering the Plant Health Fellows program for Summer 2024.

PROGRAM

DATES:

June 10 -
August 8, 2024

APPLICATION

DEADLINE:

February 23, 2024

APPLY AT:

[SouthernCT.edu/
plant-health-fellows](https://SouthernCT.edu/plant-health-fellows)

- The Plant Health Fellows program offers free housing on campus and a \$5,000 stipend.
- Students conduct a mentored research project at the nearby Connecticut Agricultural Experiment Station (CAES) in New Haven.
- Research projects are in areas including plant pathology, analytical chemistry, entomology, molecular microbiology, plant physiology, and forest health.
- First or second year students and novice researchers (students with no prior paid research experience) are strongly encouraged to apply, as are first-generation students and students from groups underrepresented in science.
